Solage Calistoga

Calistoga, California

With private studios and suites connected by winding trails dotted with contemporary art installations, a stay here feels like you've shacked up in a utopian community amid purple-green mountains and never-ending stretches of vine.

What we loved The refined, natural touches, like the sustainably farmed local wood and pebble-floored showers.

If you only have one night Reserve a table at Solbar, where chef Brandon Sharp's ever-changing menu features such dishes as crispy Monterey Bay squid and coriander-dark-rum-cured smoked salmon.

Bonus Taking a spin on the complimentary pair of bicycles outside each studio.
