### **Solage Calistoga; Calistoga, CA**

This northern Napa Valley compound—where the 89 modern, light-filled rooms and suites are fueled by solar panels and the parking lot has electric car-charging stations—takes its *terroir* very seriously. At the onsite Michelin-starred restaurant, Solbar, chef Brandon Sharp takes full advantage of the region's bountiful organic produce; a running “Sunday School” program allows guests to taste and learn about different vintages from more than 200 Napa wineries. Even the spa makes use of Calistoga's geothermal assets, offering volcanic-mud and mineral-water baths. [solagecalistoga.com](http://solagecalistoga.com)
